The Cost Of Your Groceries

"No food price collapse is likely . . . so long as wages and employment remain near present high levels," says a Wall Street Journal commodity letter. "The factory worker's weekly pay is now double pre-war. And some 15 million more people have paying jobs than before the shooting started."

These are not the only factors contributing to high prices, but they are among the most important. The cost of food, much as we will recall it, is just a logical reflection of the economy of the day. It is true that agriculture's gross income has multiplied—but the cost of everything the farmer must buy, from labor to feed, has followed suit, and there no get rich quick profit left when all the bill are paid.

The people who handle the food after it leaves the farm—manufacturers, canners, processors, packers, etc.—have no means of reducing the price. Like all mass production industry, they operate on an extremely small profit margin. And they too must meet going wage and other costs.

Finally, the retail grocer who sells you your food is in exactly the same position. A number of chain food systems have issued graphic statements of what happens to each dollar spent in their stores. The profit margin, after the bills are met, runs to about 1 1/2 cents per dollar of sales. In other words, if the retailer made no profit at all, it wouldn't make a visible dent in your food budget.

You are getting your food for the lowest price possible under the circumstances. That is always true in a competitive economy—the only kind of an economy able to combine peak efficiency with peak abundance.

National Congress
Is Demanding On A
Sincere U. S. Senator

Our junior Senator, Speppard Holland, who takes his job seriously and fully realizes his responsibility gives some idea of the importance of having a man of good work such a viewpoint brings.

Following we give a part of his report on miscellaneous accomplishments:

The Senate was a busy one which devoted much of its time to those matters which have to do with our nation's part in the confusing world picture and with strengthening our national defense.

He introduced the Reciprocal Trade Program, the plan to strengthen the United Nations, the extension of the Reciprocal Trade Agreements Act, the Civil Rights Bill, the approval of various new treaties with friendly nations, the enlargement of our air force, the setting up of peace-time selective service, the strengthening of the Reserve Army, the National Guard, the amendment of the Atomic Energy Act, these and other matters in the fields of international relations and the security of our country, all within a few weeks of attention. Lack of time prevents my discussing these vital matters, but I will say that I actively supported the bill to prohibit discrimination in all fields of employment which measures were enacted in the Senate.

I hope and pray that this bi-partisan program will succeed in enabling us to bring back into full play our war-weary world, while at the same time preserving our military and economic might. May God bless our efforts.

Inspire thoughts and desires are always sins, unless they please us and we try to banish them. One should banish the impulse to covet, but in the love of God's assistance, and in the time to fight with courage against the tempter. James 1:12.

The U. S. Navy's first submarine, the USS HOLLAND, was invented and designed by John P. Holland and accepted by the Navy in 1900. In the upper photograph the HOLLAND is shown buttoned up and starting its auxiliary. In the past 48 years of the Navy's century and a half of existence as a Department of the United States Government, development in methods and warfare has been phenomenal, such post-war developments as that shown in lower picture, the USS GUPPY, SS-645, Improved Fleet-type U-boat having conversion under the "Guppy" program. (Official Navy Photopraph)

From 1940 to 1946 her total income to individuals increased 163 per cent while those of the nation only increased 121 per cent. That is, the rate of increase along if you ask me!

From a flat-footed little country gal she has blossomed into a lady of real importance, having opened up her own business, a cash income of over three hundred and fifty four million dollars showing an increase over 1940 of 221 per cent.

Miss Betty Lou Powell returned home Wednesday after spending the past two weeks with her mother, Mrs. Harold Hob in Lake Worth and Mr. and Mrs. Clyde McGee in Hobe Sound.

spending her vacation in Lexington, Kentucky.

BLESSED EVENT

Mr. and Mrs. John Bass are awaiting the birth of a daughter, Brenda Jean, on August 15th at the Belle Glade Hospital. Mrs. Bass is the former Edna Wynne.

Mr. and Mrs. Fred Catanzaro announce the birth of a son, Richard Allison, July 31 in West Palm Beach. She is the former Wanda Lowery.

A daughter was born to Mr. and Mrs. Edgar Wright on July 31 at Tahawus, N. Y. She has been named Melanie Gall.

Her birth resources as of January 1, 1947, were \$2,032,000.

The national percentage of increase during the same period was only 109.

Bank debts (charge against bank accounts and the like) increased 73 per cent nationally (1940-1947) and 45 per cent nationally.

When it came to retail sales, Miss Florida really went to town, with an increase of approximately 215 per cent from 1940 to 1947 while the national percentage of increase was only 150.

The gal did plenty of letter writing, it seems for her postal address was up 99 per cent with only 87 per cent for the rest of the country.

Being a young woman, Miss Florida saw to it that her insurance was well protected by insurance. While the other girls of the nation only increased their life insurance 86 per cent, Miss Florida increased hers 127 per cent.

She spends a lot of time on the telephone and, according to Miss Florida, she is now using 20 per cent more business phone and 207 per cent more residence phone to an increase of nearly twice that obtained by the rest of the country.

She depends on Mr. Reddy Kilowatt, that energetic little busboy, to help her, and last year he was responsible for 180,000 kilowatt hours for her, 185 per cent greater than in 1940 while the national average increase was only 111 per cent.

While just about all of these evidences of Miss Florida's great improvement in living conditions, Harold says her real charm and popularity is her sunny disposition. Thanks to him she enjoys an annual cash income that he receives \$1,125,000,000. He calls it his "sun income". This is made up of \$78,000,000 from tourists and other visitors (Miss Florida likes company) plus plenty of entertainment, \$20,000,000 from fruits and truck crops, possibly only under Florida conditions, and industrial products valued at \$133,000,000 come from these agricultural groups.

Being a modern gal, Miss Florida took up aviation at an early age. This time it's the PVC which she is flying around the world. She has a lot of guts and give-away attitude, and she is as daring as discarding as a parent. She hopes that someday we might see her in the air, and she is saying they'd just pull our pants down if we did. She wants citizens and that a check for \$100,000,000 for the morning? They might even make a movie of it. Columbus discovered America, and she is using being prepared and ready body and soul to do the same.

We urge everyone to put aside a few dollars for the coming year. If you have any money, if they have any money, let's do something. It would be a good idea to be a citizen of the United States.

Veterans barred from any future Readjustment Allowances under the G. I. Bill of Rights in the Glades area are totals 1, Arthur M. Laramore, manager of the Belle Glade office of the Florida State Employment Service stated today. This local office issues the following count:

Hendry and West Palm Beach. These veterans will be prevented from drawing any additional benefits because they are employed and paid. To date, 514 claimants throughout Florida have been declared ineligible to receive future benefits for this reason.

A total of five veterans have been convicted in federal or state courts of embezzlement, ranging up to five years under date, 514 claimants throughout Florida have been declared ineligible to receive future benefits for this reason.

The most common fraud which has been discovered is the act of a person becoming employed while working while they are drawing compensation and certifying that they are unemployed and available for work. Many of these cases of fraud have been discovered by post office and employer's records to determine whether claimants had drawn while claiming and working allowances. Other leads have come from letters from employers.
